Policy | Practice Parent

Purpose | To ensure the safety of each player and quick response if an injury or incident break out at training sessions.

Overview |

BYSC Requires each competitive team to have a practice parent (adult or relative of any rostered player) to attend each training session and to remain at the training session until the last rostered player has left the field and or premises. Coaches are instructed to cancel practice if no practice parent is present. Practice parents must be visible to the coach and make themselves known. Practice parents will hold the sole responsibility of monitoring practice and being able to respond should an injury or incident occurs during practice.
